A collection of fresh produce and packaged goods. On the left, there is a variety of fruits including pineapples, apples, oranges, and bananas. On the right, there are several boxes of instant noodle brands like "MAMA" and "Kangaroo". Below these are several small clear plastic containers filled with different types of vegetables and snacks, such as green beans, carrots, and what appears to be fried snacks or pickles.

H&M

- Soon after the crisis hit, fast-fashion giant H&M began rearranging its supply chain to source and produce protective equipment for healthcare workers on the front lines. The first round of 100,000 face masks was delivered to Spanish and Italian hospitals and an H&M supplier is in the process of producing 1 million long-sleeve, protective aprons for Swedish hospitals.

A screenshot of a Microsoft PowerPoint presentation. The title bar reads "CREATING OPPORTUNITIES IN UNCERTAINTIES - Microsoft PowerPoint". The slide content includes the H&M logo and a bullet point describing the company's response to the crisis. The left sidebar shows a slide outline with the current slide highlighted. The Zoom logo is visible in the bottom right corner of the slide.
