Webinar Report 17st July 2021

National Level Youth Skill Enhancement Webinar Series: Lecture 2
National Webinar on "Creativity and Innovation"

Duration: 02 : 00 Hrs. Dated on: 17th July 2021

Introduction:

In 2014, the United Nations General Assembly declared **15 July** as World Youth Skills Day, to celebrate the strategic importance of equipping young people with skills for employment, decent work and entrepreneurship. A day dedicated to raise awareness about the importance of youth skills development. The issue of youth unemployment is a major concern for all societies. By encouraging youth skills development, the issue of unemployment can be tackled and reduced drastically.

On occasion of "World Youth Skills Day" , Rajiv Gandhi College of Arts, Commerce and Science has initiated an national level webinar series, department of commerce science along with IQAC jointly organized the national level Youth Skill Enhancement Webinar Series" Creativity and Innovation'. The webinar (series-2) held on 17th July 2021, 9.00 am to 11.00 am at virtual platform (Zoom and You Tube) by following the guidelines of Covid-19.

Respected Sir Mr.Dhananjay Singh ,Assistant Vice President Learning & Development, Marwadi University, Rajkot, Gujarat was the resource person for Webinar (Series-2).

The Webinar witnessed the active participation of students, more than 1000 participated join this online webinar.

The Webinar began with holy prayer by Asst. Prof. Priyanka More. Our Principal Sir, Mr. B.S.Pandey address the audience. Asst. Prof. V. Ravishankar began the webinar with brief introduction of guest Mr. Dhananjay Singh and welcomed the participants and guest.

The program was structured in a PPT with visual impact.The following concepts was explained by the resource person with the help of various examples.

- Learning comes after experience.
- How to remove barriers of creativity?
- SCAMPER Technique.

It was very informative session . Many students were asked questions in chat box and he had given very informative answer to them

Asst. Prof. Veena Sawant proposed the vote of thanks. Finally feedback collected from the participants by the way of google form. The overall webinar was anchored by Asst. Prof.Anamika Singh.

About Resource Person:

Mr. Dhananjay Singh
Assistant Vice President
Learning & Development
Marwadi University, Rajkot, Gujarat..

Workshop Outcomes:

- Cognitive Communities. Connected by intelligence, cognitive communities learn, and offer ever-improving services
- Always looks for ways to improve yourself. View a challenges as a great opportunity to learn. .Create a learning environment to facilitate practice .
- Creativity is the need of the hour
- Creativity is not only a talent but an ability of a person.
- Participants got to know How to improve yourself and touch the success in life with new and different ideas and make it creative.
- Innovation is vital for learning as well as for application in academics.

Conclusion: The webinar was conducted through You tube by keeping in mind that it can reach to maximum beneficiaries. This You tube coverage of webinar is anytime accessible and available. It would help students, teachers, working professionals, entrepreneur to become more creative in their day today life and excel in academic growth and happily meet the future challenges.

Webinar Report

Enhancement Webinar Series Expert Session 4 : National Talk on "Personal Finance Management Skill"

Duration: 02 : 00 Hrs. **Dated on: 31st July 2021**

Introduction:

Indeed, in a world where assets and investments move quickly and we link our bank accounts to innumerable services and make purchases with the touch of a button, financial management is a trickier concept than ever before.

Financial literacy is just like learning any other language. One needs to utilise and apply their knowledge to be proficient. Certain terms and concepts need to be on our tips and like any other task, even in this case, practice helps build awareness of money matters. Irrespective of our age, profession or income level, a robust understanding of one's financial situation helps one be responsible with how they use and allocate the money that they earn. The **Department of Commerce, Management** in collaboration with **Department of Accountancy and Finance along with IQAC** has organized this workshop.

This workshop is mainly focusing on the recent challenges in the field of personal finance along with the precautions (that we need to take to prevent from the fraud) and best schemes which are available in the market. The students must aware the knowledge of personal finance so they can start investing at early stage and gain the advantages of it.

Topic Covered:

- Meaning of Financial literacy
- Skills for Managing Personal Finance
- Financial Life Journey of An Individual
- Meaning and Importance of Saving /Deposit/Investment
- Saving and Investment Option
- Meaning of Mutual Fund
- Benefits of Investing in Mutual Funds
- SIP (Systematic Investment Plan), benefits and importance
- Loan and types of loan
- CIBIL (Credit Information Bureau (India) Limited
- Life & General Insurance, Types of Insurance
- Nomination and Will
- Protect your money –Beware of Fraud!

About Resource Person:

Mr. Manohar Puranik

Financial Education Counselor
ICICI Foundation for
Inclusive Growth, Vadodara.

Webinar Outcomes: Lots of Learned outcomes about **:**

- How to manage our personal finance effectively.
- We were Workshop confident to make investment
- Handling your finances the right way should be a priority and it should drive your daily spending and saving decisions.
- Expert recommended you have a saving account which you can use for handling unexpected financial expenses and emergencies.
- One of the first building block of a successful personal finance plan is the ability to budget. Budgeting requires that you analyse and likely change your spending habits.
- It gave Information about various schemes which are beneficial for the investors i.e NSCs/KVPs from Post Office, pension fund and pensions fund scheme for private sector, Gold etc.
- The concept of Mutual Fund and SIP we come to know by this webinar
- Learners got to know about Credit Score, which can be a strong indicator of financial well being.
- Getting Control of your credit card debt requires taking a good look at how much you owe.
- The sooner you start saving for retirement the more opportunities you will have to grow the resources available to you.
- How to beware of fraud its clearly guided by the speaker. We never share our personal financial details with any one, no organizations is asking for it.
- We should not share our OTP and UPI pin to others and do not go with the fake message regarding any prize & Likely message.
- The Importance of Personal finance in one's life
- Before investing in anything, one should know about what type of risk it involves.
- Management of finance and simple ways to learn own personal finance management.
- We really thankful for Speaker because he provides us a very practical technique which are happened in market to mislead the investors.

Conclusion:

One step towards having a stable financial future is to build a deep knowledge of our finances. It's important that one makes a change in their spending habits and plans their budget and income before they fall too deep in a financial crisis. Every person must devote time to improving their financial knowledge so as to have a secure future.

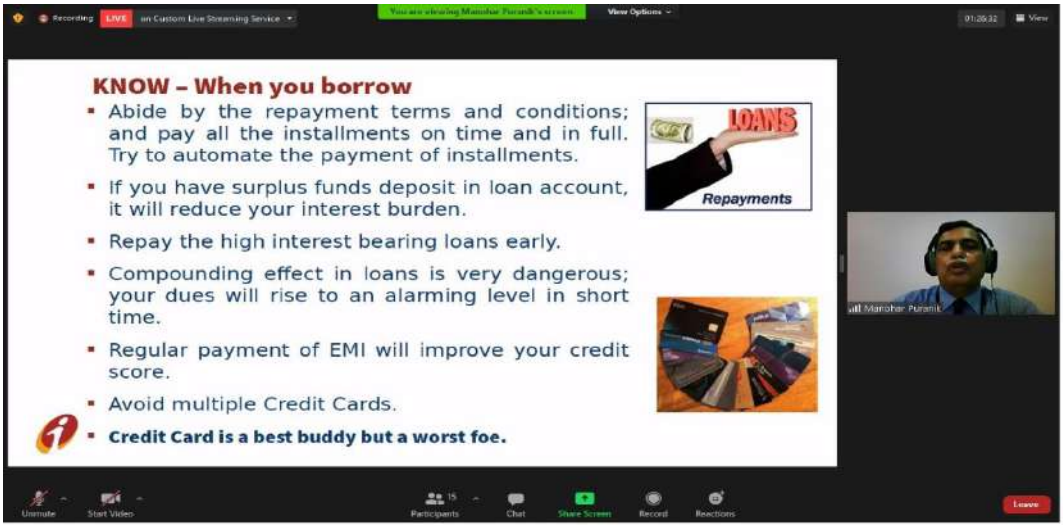
CIBIL
Credit Information Bureau (India) Limited (CIBIL) is India's first Credit Information Company; now it is TransUnion CIBIL.
It collects and maintains records of an individual's details pertaining to loans and credit cards and history of repayment.
Information collected by CIBIL is then used to evaluate and approve loan applications.
Any irregularity, however small, is tracked and reported by CIBIL, making application for further loans difficult.
CIBIL
Part of TransUnion
Manohar Puranik
24



KNOW – When you borrow
Abide by the repayment terms and conditions; and pay all the installments on time and in full. Try to automate the payment of installments.
If you have surplus funds deposit in loan account, it will reduce your interest burden.
Repay the high interest bearing loans early.
Compounding effect in loans is very dangerous; your dues will rise to an alarming level in short time.
Regular payment of EMI will improve your credit score.
Avoid multiple Credit Cards.
Credit Card is a best buddy but a worst foe.
LOANS
Repayments

CIBIL Score

- CIBIL Score is a 3 digit numeric summary of credit history.
- The value of credit score ranges from 300 to 900.
- The closer your score is to 900, the higher are the chances of your loan getting approved.
- Score above 650 is generally acceptable to Banks/FIs.

- **To maintain a good credit score:**
- Always pay your dues on time in full.
- Keep your balances low.
- Maintain a healthy mix of credit (secured/unsecured).
- Apply for new credit in moderation.
- Monitor your co-signed, guaranteed and joint accounts regularly.
- Review your credit report once in a year.

Nomination & Will

- Ensure Nominations in all the investments.
- Bank Accounts, Bonds, MF's, Demat a/c etc.
- Make it a thoughtful exercise, update the nomination immediately if circumstances are changed.
- Make a soft copy (upload it on clouds) and keep a hard copy file of all your investments organized and name wise.
- Based on the above data make a Will (earlier the better).
- Remember Will can always be up dated later on.

Benefits of Investing in Mutual Funds

- Professional management
- Easy liquidity
- Reduction/diversification of risk
- Return potential
- Well regulated - investor protection
- Low operating costs
- Convenient Administration
- Flexibility of investment

15

Power of Compounding

- If one invests the same total amount via SIP @8% p.a. till the age of 60:

Starting Age	Total Years of Investment	Monthly Investment	Total Amount Saved	Value at the Age of 60
25	35	1000	420000	2279463
30	30	1167	420000	1731689
35	25	1400	420000	1328861
40	20	1750	420000	1030867
45	15	2333	420000	809006
50	10	3500	420000	642677
55	5	7000	420000	517048

- Even though the same total amount of Rs. 4,20,000 is invested, if you start early, the value of your investment becomes very high.
- It is very important to start investing at an early age.

BRIEF INFORMATION ABOUT THE ACTIVITY (CRITERION NO - III,V and VI)

TOPIC/SUBJECT OF THE ACTIVITY	Plastic Waste Management
OBJECTIVES	As earth can not digest plastic so it is necessary to reduce, rethink and refuse its use. To save natural resources. As plastic influences the food chain which causes severe types of diseases its management is necessary. As plastic releases toxicants like benzene, vinyl chlorides (carcinogens) which cause cancer to human beings, its use should be replaced.

Mrs. Priyanka More

DLLE Extension Teacher

Mr.Arun Vishwakarma

NSS Program Coordinator

Organising Committee

Mr. K.C. Sahu

Ms. Sarita Shinde

Mrs. Purnima Gupta

Mr. Raju Rathod

Participants List: - From around 20 states of India, we have got 532 registered participants. Out of which 396 participants had given feedback cum attendance form. Around 1500 participants were there for the YouTube live session.

Resource Person : Mr. Ninad Avale, General Secretary of Jay Foundation, An NGO dedicated towards creating awareness and bringing about a change in the society for environmental conservation and sustainable development.

Outcome: -

Created awareness about following things

- Plastic pollution is caused by the accumulation of contaminated plastic material in the environment. Plastic is a non-bio-degradable substance. Plastic waste enters the water

like rivers, seas and even the sea and pollutes our water very much. So we say no for the plastic.

- How to separate plastic from our dry waste.
- How to dispose of it.
- Issues of plastic use should be tackled from everyone's house itself.
- The ways by which we can reduce the use of plastic and find alternatives for using it.
- Plastic waste management is an initiative to control the amount of plastic waste in the environment by adopting a circular economy and other environmental-friendly disposal solutions. Collaborations to end plastic waste and bring environmental regulations. We have to control ourselves and negotiate to bring down the waste and leave healthy environmental regulations.

ACTIVITY REPORT

DEPARTMENT OF CHEMISTRY

IQAC ACTIVITY NO:

NAME OF THE ACTIVITY: National Level Webinar on "Solar Energy as Renewable Energy and Sustainable Future"			
DATE:	**FACULTY:**	**DEPARTMENT/COMMITTEE:**	**COORDINATOR NAME:**
2nd March 2022	37	Chemistry in coordination with ICS - Mumbai Branch	Mrs. Priyanka More
TIME:	**VENUE:**	**NUMBER OF PARTICIPANTS:**	**NATURE: ONLINE/OFFLINE**
9.00 am to 11.30 am	Zoom and YouTube Live	No. of Participants live on Youtube:- 800, Feedback form :- 132	ONLINE
SUPPORT/ASSISTANCE:	Asst.Prof. Sarita Shinde (HOD) Asst. Prof. Arun Vishwakarma Asst. Prof. Purnima Gupta		

BRIEF INFORMATION ABOUT THE ACTIVITY (CRITERION NO – III and V)

TOPIC/SUBJECT OF THE ACTIVITY	National Level Webinar on "Solar Energy as Renewable Energy and Sustainable Future"
OBJECTIVES	1.Solar energy is **a clean source of energy for the environment.** No greenhouse gas emissions are released into the atmosphere when you use solar panels to create electricity. 2.Solar energy offers considerable advantages over conventional energy systems. 3.Raw materials used to create solar power are renewable and unlimited. 4.Solar panels produce no pollution. 5.Solar panels and installation involve high initial expenses, but this cost is soon offset by savings on energy bills. 6.To create awareness about this natural energy resource which is renewable as well as sustainable
METHODOLOGY	Lecture, Practical and Q & A, Quiz
OUTCOMES	**Attach with Report**

SUPPORT/ASSISTANCE:	Asst.Prof. Sarita Shinde (HOD), Asst. Prof. Arun Vishwakarma, Asst. Prof. Purnima Gupta

Ms. Sarita Shinde

(HOD, Dept. of Chemistry)

Mr. Arun Vishwakarma

Mrs. Purnima Gupta

Outcomes: -

1. Explained the principles that underlie the ability of various natural phenomena to deliver solar energy.
2. Outlined the technologies that are used to harness the power of solar energy.
3. Discussed the positive and negative aspects of solar energy in relation to natural and human aspects of the environment.
4. Discriminated between (1) Solar Resource, (2) Solar Energy Conversion Systems and Solar Goods and Services.
5. Explained the *goal of solar design* in terms of locale, stakeholders/clients, and solar utility.
6. Connected the historical and modern contexts for solar energy growth/recession to stakeholder preference, fuel constraints, and solar rights/access.

Workshop Report August2021

"Academic Project-A gateway to Professional Career"

.Duration:02:30 Hrs. **Dated on:2nd August 2021**

Introduction:

A project course in software engineering is often part of the curriculum in computer science& Information Technology. The relationship between academic and industrial projects in software engineering is essential part of skills development. The purpose is to compare the practices followed in a project-course approach with the practices of professional software engineers. The approach is to compare the measurements obtained from academic and industrial projects. The critical factors regarding the process, the people and the project are discussed. The structure of the software processes and the measurement tools are presented. The data analyses show that the academic projects are found to be strongly dominated by programming activities. Based on the data from the industrial projects, we formulate seven recommendations to improve the software engineering practices in academic projects.

This workshop is designed to help undergraduate students assess current their skills and areas for growth, explore potential projects and start one that aligns with their goals. At the end, students will be on the way to starting a project and earning a digital badge to display new skills and development process of software products.

This workshop was attended by **436participants** including academicians, Students, Faculties, Researchers. The below is workshop elaborated contents.

The topics covered through Workshop:

- Why a project in final year
- What is professional development
- Project Type Selection
- Software and broad areas of Application
- How to start a project
- Project Design
- Top 10 Technologies in software developers.
- T-Shaped Skills

.

About Expert:

- **Prof. AhteshamShaikh**

Head of Department –IT

Anjuman-i-Islam's Akbar Peerbhoy College of Commerce &Economics,Mumbai

MCA, MBA (Information System)

Microsoft's MTSF NTA-UGC-NET, MH-SET, Google Certification

Presented & published **13** National and International Research Papers.

Dr. Ansari Nasir

Head of Department- IT

KPB Hinduja College of Commerce,Mumbai

MCM, MBA, MPHil&Ph.D

Published 23 National and International Research Paper

Author of 13 Books

Workshop Outcomes:

- This workshop is designed to help undergraduate students assess current their skills and areas for growth, explore potential projects and start one that aligns with their goals.
- Online Workshop is a good platform to address some academic issues/challenges/problems/ doubts etc. that support the stake holders to get deeper understanding on project courses and concepts.
- To Support access and equity to experiential learning through professional education opportunity through workshop projects demonstrations.
- Found new topics for dynamic content development in terms of new software product development ideas.
- As the workshop done online anyone can gain knowledge anytime & anywhere.
- Students will be able to design, develop, document, and test software using current techniques

Conclusion:Approaches to software development, workshop extended knowledge of the important ideas in software development. The workshop investigated the characteristics of a good software system, and considered what a development process would need to include building such software. The Workshop showed that there is no single development process to suit the variety of users' requirements. However there must be a disciplined approach to software development.

Project Type Selection

- The majority of the students are expected to work on a real-li project preferably in some industry/ Research and Development Laboratories/Educational Institution/Software Company.
- Students are encouraged to work in the areas listed woleb .
- However, it is not mandatory for a student to work on a real-life project.
- The student can formulate a project problem with the help of her/his Guide and submit the project proposal of the same.
- Approval of the project proposal is mandatory.
- If approved, the student can commence working on it, and complete it.
- Use the latest versions of the software packages for the development of the project.

ACTIVITY REPORT

DEPARTMENT/COMMITTEE/FACULTY

IQAC ACTIVITY NO:

NAME OF THE ACTIVITY: National Level Workshop On "**Android Application Development** "			
DATE	**FACULTY**	**DEPARTMENT/ COMMITTEE**	**CONVENER NAME**
11th March 2022	07	IT/CS Department	Asst.Prof. Ragini Khapare
TIME	**PLATFORM**	**NUMBER OF PARTICIPANTS**	**NATURE:**
9:00 AM To 11:00 AM	Zoom App &You Tube		Online/Virtual
SUPPORT/ ASSISTANCE:	Asst.Prof. Anita Yadav Asst.Prof. Sarojini Biradar Asst.Prof. Savita Desai Asst.Prof. Sarojini Biradar Asst.Prof. Sherin Varughese Asst.Prof. Archana Pandey Asst.Prof. Kamal Jain		

BRIEF INFORMATION ABOUT THE ACTIVITY (CRITERION NO -):

TOPIC/SUBJECT OF THE ACTIVITY	**Android Application Development**
OBJECTIVES	To enable faculties and students with practical demonstration-based knowledge about Android application Development.
METHODOLOGY	To organize the workshop online mode was used. Along with that the same sessions YouTube streaming done through institutions official channel on YouTube & Zoom App.
OUTCOMES	1. Use development tools, such as those found in the Android Developer's Toolkit to efficiently create, understand, debug and optimize Android applications 2. Understand the Android platform's organization, patterns and programming mechanisms and be able to use them effectively to develop their own Android applications.

Workshop Report 11th March 2022

"Android Application Development"

Duration: 02: 00 Hrs. **Dated on: 11th March 2022**

A National workshop on Android application development was recently held at Computer Science & Information Technology of Rajiv Gandhi College of Art's, Commerce & Science,Vashi. Android is a Linux based operating system for devices such a Smart phones and tablet computers.The aim of workshop was to familiarize the participants with the basics of android programming and at the end the participants can design their own apps.

It was an interactive workshop conducted by Asst.Prof.Vishal Borude, Department of Information Technology,Mulund College of Commerce,Mumbai. He started the workshop with the current trends of Android developments and its advantages and disadvantages. He discussed the importance, usefulness, and impact of apps in today's digital world. He briefed the students about the types of validation, basic hardware and software requirements for android development.

He provided insights about Android development. He dwelled at length on app architecture, app components and app resources. He not only explained it analytically but also demonstrated the same by creating an app. After hands-on Question –Answer session conducted interactively. Workshop concluded by vote of thanks which proposed by Asst.Prof.Savita Desai.

"Applications of Artificial Intelligence using Python"

Duration: 02 : 00 Hrs. **Dated on: 22nd July 2021**

Introduction:

There has been an increasing interest in AI during pandemic in Education. AI is transforming how we live, work and play. By enabling new technologies like self -driving cars and recommendation system or improving old ones like medical diagnostic and search engines, the demand for expertise in AI learning is growing rapidly. The **Department of Information Technology** in collaboration with **Department of Computer Science along with IQAC** has organized this workshop.

Today's youth are using technology in a variety of ways, from texting and tweeting to chatting, online gaming, and posting a variety of information. Youth are often the most avid users of technology. Enhancing the skill of the youth has become very much important. We have been using Artificial Intelligence in our day today lives even without knowing. Like how we have been using Google Maps and Ride-Hailing Applications, Face Detection and Recognition, Digital Assistants, ALEXA , Social Media, Text Editors or Autocorrect, E-Payments ,Search and Recommendation Algorithms.

This workshop is not just focusing on Applications of Artificial Intelligence using Python but also how one can make it more interactive so that the learner can be attentive during the e-lectures. The institution organized workshop/webinars to train faculty and students to make them acquainted with ways and techniques which are helpful in e-content development and e-teaching.

This workshop was attended by **631 participants** including academicians, Students, Faculties, Researchers. The below is workshop elaborated contents.

The topics covered through Workshop:

- History of AI.
- Introduction.
- Domains of AI.
- Application of AI.
- Advantages and Disadvantages.
- Growth and feature of AI.
- AI Quiz.
- Introduction to python.
- Demonstration of AI in Gaming Using Python.

About Resource Person:

Dr. Swati Vitkar

Department of Information Technology,
S.I.E.S College of Arts, Science and Commerce,
Nerul, Navi Mumbai.

Qualification :-

UoM Approved Teacher for B.Sc. I.T, M.Sc. I.T & M.Sc. C.S
S.I.E.S College of Arts , Science & Commerce, Nerul.
PhD Guide for Computer Science
Reviewer of many International Journals

Workshop Outcomes:

- Explored session on teaching Artificial Intelligence using Python Programming. Understanding of A.I and its implementation was covered in this workshop.
- Detailed Explanation on the implementation was exercised. Tic Tac Toe Example was also implemented with an interactive communication with Faculties.
- Online Workshop is a good platform to address some academic issues/challenges/problems/ doubts etc. that support the stake holders to get deeper understanding on subjects and concepts.

Conclusion: During Covid19 pandemic Artificial Intelligence helped to continue the teaching learning activities. Also the idea that machines could think and perform task just as human do helped learner to get more knowledge about technologies.

International webinar Report AUGUST 2021

"Future opportunities in research and development through ICT"

Duration:2 hours **DatedOn-14th August2021**

This workshop was attended by more then 500 registered participants drawn from across the country with 1027 views during You Tube live session.The importance of research and development has become more evident everyday among the factors that directly related to the good economic performance of the emerging countries of 21st centuries.Adoption of Information and Communication Technologies in teaching, learning and research has come a long way and so is the use of ICT tools. ICT tools are mainly used by researchers for its ability to ease knowledge-gathering process and to enhance resource-development. Researcher in general value creativity and originality, thus the ICT tools which provide with the most open situations with great autonomy to the researcher can really help in identifying and solving research problems in the most creative ways.The future economic progress for any country will be driven by the invention and application of new technologies.

Below we present a synthesis of them important points from the workshop, the topics learned, feedback analysis and recommendations for future action.

Webinar ResourcePerson Profile:

Dr.Tapan Kumar Mohanta. (Researcher, Natural and Medical Sciences Research Centre, University of Nizwas Oman, Ph.D. in Environmental Biosensors Science, MS Bioinformatics.)

Introduction:He is having total 11 years of Research Experience and his Research Area are Genomics and Molecular Biology of Plants, Nanoparticles and Antimicrobials.

He is currently working as a Researcher with Natural and Medical Sciences Research Center, University of Nizwa, Oman. Dr. Tapan Kumar Mohanta did his Ph.D. in Environmental Biosensors Science from Doctoral School of Science and High Technology, University of Turin, Italy. He had completed his MS in Bioinformatics and M.Sc. in Biotechnology; He has participated in International Research Project Proteomics for plant production in the European Union (P4EU) organized by COST European Cooperation in Science and Technology. He was

Honored with Government of Italy Doctoral Scholarship for International students from University of Turin, Italy. He is also Editorial Board Member of

1. BMC Research notes, Springer Nature,
2. Australasian proteomics society
3. American society of plant biologist

His Research Contributions and Discoveries Contributed in Science is much more. Till date 48 research papers on Plant Biology, 20 on Nanoparticle Chemistry/Antimicrobials and 06 other Research paper has been published. He has also published several book chapters.

Content:

The webinar hasbeencoveredthefollowingtopics:

1. Indian Scientist of Pre-ICT.
2. ICT in Education.
3. Reconnecting Science/Technology & Society.
4. Research Areas in ICTs.
5. IDOT / ICT Research Process.
6. Future Opportunities in Research & Development.

LearnedOutcomes-

- Information communication technology (ICT) is among the latest innovations that has revolutionized various operations in the world.
- It is particularly important in the field of education since it has recently created such platforms and opportunities that have facilitated to some extent the acquisition of knowledge.
- Identifying different communication tools, and selecting the appropriate one for the intended type of communication:
    - Briefly exploring different tools and communication environments on the Internet.
    - Choosing the appropriate IT tool for the relevant context.
- All electronic source of information which facilitate in learning, training and education program is a part of e learning. It is broad educational concept primarily characterized using electronic information network, media, computer, electronic devices and other types of communication technologies like, internet-based learning, intranet (LAN) extranet (WAN), online education, computer-based training, DVD, You Tube video-based learning, CD ROM based learning, Webinars, Virtual classroom, Mobile learning, custom e learning, off the shelf e learning etc.
- Web seminars are now growing with the help of educational ICT. It is facilitating educators and learners to participate, interact and attend experts through web seminars. It is flexi and convenient approach of attending virtual seminars.

National Level Youth Skill Enhancement Webinar Series Expert Session 1 :

Discover your Passion – Dream big and make it a Reality

Duration: 02 : 00 Hrs. **Dated on: 15th July 2021**

Introduction:

World youth skills day was celebrated on this day. In the recent pandemic situation as most of the study is done online, the skill development of students is getting affected. Many students have also left schools and colleges due to various difficulties they faced on social and economic level. Pandemic has only accelerated the distraction of student to skill development and not caused it, in the new world driven by information technology, young minds are diverted away from studies and are falling prey to various other activities that hamper the skill development.

The chief guest for the seminar arranged Mr. Danpat Raj Dhariwal Sir, CEO and founder of Vision 2025 Outlook Change, a member of NITI Aayog having more than 45 years of experience of working in corporate sector and CEO for more than 20 years for various groups and corporates. Using examples like making of zollipops by a young entrepreneur, and the recent acknowledgement of Ranjit Disley, a teacher for Solapur, Maharashtra winning the Global Teacher Award, Mr. Dhariwal Sir explained how innovative minds use their skills and make wonders.

The main theme of the webinar "Discover your passion- Dream Big and make it a reality" focused on helping the students attending the session to build an insight on how to use their time effectively and develop skills that are required for the betterment of society and contribute in the way possible for them to do.

.

With the strength of 443 participants, the webinar was hosted by Asst. Prof. Anamika Singh. The Resource was introduced by Asst. Prof. V. Ravishankar. The session was interactive with questions and answers received in Chat box, and conveyed by Asst. Prof. Sherin V. At last, the interactive and interesting webinar was end by Vote of Thanks given by Asst. Prof. Sarojini Biradar.

Overall Webinar was successfully done.

About Resource Person:

Mr. Dhanpat Raj Dhariwal

CEO & Founder
Vision 2025 – outlook change
Regional Mentor for Change.
(NITI Aayog)
Atal Innovation Mission (GOI)

Webinar Outcomes:

- World Youth Skills Day is celebrated to recognise the fact that if youth acquire skills, it will enhance their ability to make informed choices regarding employment. In addition to this, they can also gain access to changing labour markets.
- Lots of specific strategies and programs were discussed for upskilling student, which can be adopted in educational institutions.
- We should identify our potential and must enhance our skills in order to grow in whichever field we wish to work.
- Be determined to your passion
- Determination and being well planned, prepares the person to get ready for challenges on the way..
- First you dream and then start working on dream is not your passion but your passion become a dream.
- Participants got to know about national Skill development mission which they were not aware of before the seminar
- The session gave a glimpse on the topic. The session gave information on passion, motivational stories etc..
