

Sainath Education Trust's
Rajiv Gandhi College
 of Arts, Commerce & Science Vashi, Navi Mumbai.
 {Permanently Affiliated to University of Mumbai}

Programme Specific Outcomes

M.Com degree in Business Management programme

- PSO 1 Gain proficiency in applying your knowledge of problem-solving.
 PSO 2 Ability to collaborate in teams with improved interpersonal and communication skills
 PSO 3 To develop team work, leadership and managerial and administrative skills
 PSO 4 Able to recognize features and roles of businessmen, entrepreneurs, managers, consultants, which will help learners to possess knowledge and other soft skills and to react aptly when confronted with critical decision making.

Programme Outcomes

- PO 1 Inculcating managerial skills and theoretical knowledge for managing business units with special focus on functional areas of business and management.
 PO 2 Imparting advanced accounting knowledge and skills and providing awareness regarding latest developments in the field of accounting.
 PO3 Enabling learners to acquire advanced theoretical knowledge on research methods and techniques and also developing capabilities in the application of research in solving business related problems
 PO4 Fostering ability to engage in lifelong learning, demonstrating empathetic social concern, contributing to the development of the nation, by making sure of awareness gained on various issues.
 Facilitating learners to pursue careers in professional areas of Business management.

Programme Specific Outcomes

BACHELOR OF COMMERCE IN ACCOUNTANCY

PSO 1 Acquire fundamental knowledge in the fields of commerce, business, accounting, economics, and finance, auditing, marketing, entrepreneurship development & overall general legal framework of the business and apply theoretical concepts to business Practices.

PSO 2 Analyze relationships among commerce, trade industry, services, management and administration

PSO 3 Acquire skills to work as tax consultant, audit assistant and other financial supporting services

PSO 4 Play roles of businessmen, entrepreneurs, managers, and consultants, which will help learners to possess knowledge and other soft skills and to react aptly when confronted with critical decision making.

Programme Outcomes

PO1: Determine the procedures and schedules to be followed on preparing financial statements of Companies. Have fundamental knowledge of finance, accountancy, audit, taxation, law. Enable the students to understand about Cost Concept and element of Cost and Techniques of costing. To Develop a solid foundation in taxation laws and regulations, allowing them to prepare tax returns, provide tax advice, and ensure compliance with tax laws.

PO2: Develop proficiency in the management of an organization. A solid understanding of broader business and economic concepts, allowing them to contextualize financial decisions within the business environment. To make the students aware about business communication.

PO 3: Enter master programmes like M Com, MBA and pursue professional programmes like C.A, CMA, C.S, etc. Develop entrepreneurial skills and the application of business Knowledge in both theoretical and practical aspects.

Programme Specific Outcomes BACHELOR OF MANAGEMENT STUDIES

PSO 1 Establishes a solid academic basis by taking classes in both the management field and other, more specialized subjects, such as management, communication, teamwork, leadership, ethics, and integrity, as well as courses on decision-making and problem-solving skills.

PSO 2 Develop your critical thinking skills across a range of topics to help you create an informed, autonomous viewpoint.

PSO 3 Ability to understand and commit to personal and professional ethics, responsibilities and code of conduct of management practices.

PSO 4 To comprehend the effects of management actions on sustainability and the environment, to be sensitive to those effects, and to take the necessary precautions to reduce any new risks.

Programme Outcomes

PO 1: Build a strong foundation in management marketing and business subjects

Seek a variety of career options in accounting, management and business related fields. Follow the ethics pertaining to business transactions, To understand the students about the different tools in the hands of management for effective utilization of resources. Develop proficiency in the management of an organization.

PO2: Equip with skills and knowledge to excel in their future careers . Develop entrepreneurial skills with effective communication and soft skills

PO3: conducting research, collecting and analyzing data, and applying research findings to solve business challenges. Develop critical thinking skills in students

PO4: Enter master programmes like M.Com, MBA ,MMS and pursue professional courses.

Programme Specific Outcomes

BACHELOR OF COMMERCE (ACCOUNTING AND FINANCE)

PSO 1: It enables students to understand fundamentals of accounting, taxation, costing, financial management, auditing, management accounting.

PSO 2: It motivates students to do research work in the field of finance.

PSO 3: It motivate students to pursue higher studies like CA Cost Accounting and MCom

PSO 4: It enhances students' communication skills, social skills and computer skills as well. This programme also updates students with business and corporate laws and business economies.

Programme Outcomes

PO1: Character building: Molding the character of the learner which shall enable them to identify appropriate ethical, moral legal socially sound choices in life. They shall be able to differentiate and choose between the virtues and the vice.

PO2: Skill building employability: The learners shall possess basic operational skills like using word processing, software, presentation software, spreadsheets, organizational writing, planning and execution etc. The learners shall demonstrate the ability to gain skill based preliminary employment and maintain the same

PO3: Conscientious Citizens: The learners shall be aware and sensitized towards the marginalized and socially deprived ground towards fellow citizens and take initiatives to improve social situations. They shall act sensitively and address social issues with concern.

PO4: Empathetic Communication: The learners shall display the ability to understand other people's. The learners shall be able to work with people, build mutually supportive relations with others & communicate effectively, formally and informally.

PO5: Scientific Temperament: The learners shall develop the right attitude towards logical and rational thinking which will expand /cultivate curiosity towards ideas, practices, opinions and evaluate them on the basis of scientific reasoning. The learners can act as an agent of positive change in society.

Programme Objectives

B.Sc Chemistry

- To infuse in the learner a spirit of inquiry into the fundamental aspects of the various core areas of Chemistry.
- To make the learner proficient in analyzing the various observations and chemical phenomena presented to him during the course.
- To make the learner capable of solving problems in the various units of this course.
- To give the learner an opportunity to get hands-on experience of the various concepts and processes in the various branches of chemistry.
- To impart various skills of handling chemicals, reagents, apparatus, instruments and the care and safety aspects involved in such handling
- To make the learner capable of analyzing and interpreting results of the experiments he conducts or performs
- To make the learner capable of acquiring or pursuing a source of livelihood like jobs in chemical industry
- To arouse the interest to pursue higher levels of learning in chemistry

Programme Outcomes

The student graduating with the Degree B.Sc Chemistry should be able to acquire

PO1 A systematic and coherent understanding of the fundamental concepts in Physical chemistry, Organic Chemistry, Inorganic Chemistry and all other related allied chemistry subjects. They will be able to use the evidence-based comparative chemistry approach to explain chemical synthesis and analysis. Also able to characterize, identify and separate components of organic or inorganic origin and will also be able to analyze them by making use of the modern instrumental methods learned.

PO2 Students will be able to understand the basic principle of equipment and instruments used in the chemistry laboratory. They will be able to demonstrate the experimental techniques and methods of their area of specialization in Chemistry. The course curriculum also includes components that can be helpful to graduate students to develop critical thinking ability by way of solving problems/numerical using basic chemistry knowledge and concepts.

PO3 Students will acquire core competency in the subject Chemistry and in applied subject areas. Appreciate the central role of chemistry in our society and use this as a basis for ethical behavior in issues facing chemists including an understanding of safe handling of chemicals, environmental issues and key issues facing our society in terms of energy, health and medicine.

Samath Education Trust's

Rajiv Gandhi College

of Arts, Commerce & Science Vashi, Navi Mumbai.
{ Permanently Affiliated to University of Mumbai }

Programme Specific Outcomes.

PSO-1: Physical Chemistry Graduates will be familiar with the principles of physical chemistry, including thermodynamics, kinetics and quantum mechanics. They can also apply them to solve chemical problems.

PSO 2: Inorganic Chemistry Graduates will have knowledge of the properties and reactivity of inorganic compounds, including the periodic table, coordination chemistry and main group chemistry.

PSO 3: Organic Chemistry Graduates will understand the principles of organic chemistry, including nomenclature, reaction mechanisms and synthesis. They are also able to design and perform organic syntheses.

PSO 4: Analytical Chemistry Graduates will possess the ability to analyze and characterize chemical substances using various analytical techniques, such as spectroscopy, chromatography and titration. Chemical Analysis and Instrumentation Graduates will have experience with modern analytical instruments and techniques commonly used in chemical analysis, allowing them to interpret and utilize analytical data effectively.

PSO 5: Chemical Safety and Environmental Responsibility Graduates will prioritize safety and environmental responsibility in chemical research and practice, adhering to ethical and sustainable chemical principles.

Programme Objectives(PO)

Computer Science

- To develop an understanding and knowledge of the basic theory of Computer Science with a good foundation on theory, systems and applications.
- To foster necessary skills and analytical abilities for developing computer based solutions of real-life problems.
- To provide training in emergent computing technologies which lead to innovative solutions for industry and academia.
- To develop the necessary study skills and knowledge to pursue further postgraduate study in computer science or other related fields.
- To develop the professional skill set required for a career in an information technology oriented business or industry.
- To enable students to work independently and collaboratively, communicate effectively and become responsible, competent, confident, insightful, and creative users of computing technology.

Programme Outcomes(PO)

PO1 To formulate, to model, to design solutions, procedure and to use software tools to solve real world problems. To familiarize with the modern-day trends in industry and research based settings and thereby innovate novel solutions to existing problems.

PO2 To design and develop computer programs/computer based systems in the areas such as networking, web design, security, cloud computing, IoT, data science and other emerging technologies.

PO3 • To apply concepts, principles, and theories relating to computer science to new situations. To use current techniques, skills, and tools necessary for computing practice. To apply standard Software Engineering practices and strategies in real-time software project development. To pursue higher studies of specialization and to take up technical employment. To work independently or collaboratively as an effective team member on a substantial software project. To engage in independent and life-long learning in the background of the rapidly changing IT industry. To communicate and present their work effectively and coherently. To display ethical code of conduct in usage of Internet and Cyber systems.

Sainath Education Trust's
Rajiv Gandhi College
of Arts, Commerce & Science Vashi, Navi Mumbai.
{Permanently Affiliated to University of Mumbai}

Programme Specific Outcomes(PSO)

PSO 1: Technical Communication Skills provides effective presentation and communication skills to present themselves socially and professionally.

PSO 2: Programming Proficiency demonstrates multiple programming languages and be able to design, implement and debug software solutions for various applications.

PSO 3: Mathematics provides problem solving skills by applying problem-solving techniques and algorithms to analyze and solve complex computing problems efficiently.

PSO 4: Develop and analyze quality computer applications by applying knowledge of software engineering, algorithms, programming, databases, mathematical models, Operating System and networking.

PSO 5: Networking and Computer Security allowing them to design and secure networked systems.

PSO 6: Ability to use Emerging Technology and tools like Artificial Intelligence and Machine Learning ,provides a basic understanding of machine learning concepts and be able to apply them to practical problems.

Programme Outcomes

Information Technology (IT)

The new syllabus is aimed to achieve the objectives. The syllabus spanning three years covers the industry relevant

courses. The students will be ready for the jobs available in different fields like:

Software Development (Programming)

Website Development

Mobile app development

Internet of Things

Software Testing

Networking

Database Administration

System Administration

Cyber Law Consultant

GIS (Geographic Information Systems)

IT Service Desk

Security

Technical communication skills

Green IT

And many others
