Waste Management Policy

Aware that safeguarding the environment is not just a moral imperative but a shared responsibility. The college takes the lead by initiating practices like environmental awareness campaigns, stringent waste management and advocating for a plastic-free campus.

Objectives

1. Commit to daily segregation of solid waste.
2. Endeavor to minimize the volume of solid waste disposed of within the campus.
3. Prioritize reuse and recycling of solid waste.
4. Uphold the vision of a plastic-free campus.
5. Cultivate environmental mindfulness through various observatory days.

Action Plan

- Waste segregation is mandated and executed daily, with dedicated bins for biodegradable waste (green), dry & non- biodegradable waste (blue) and non- biodegradable waste (red).
- Both faculty and students are encouraged to use sustainable alternatives like jute and cloth bags.
- Dry recyclable materials - paper, plastic. Old furniture and other items are sold to recycling agents. This not only supports the environment but also aids in generating funds for community activities.
- Wet waste, mainly Canteen kitchen and garden residues, are systematically placed in designated dustbins.
- To address the growing concern of E-Waste, designated bins have been placed in Accessible locations.
- To reduce e-waste, students are encouraged to submit assignments and projects through pen drives, emails, or other electronic mediums.
- The institution, grounded in the five "R" principles - Reduce, Reuse, Recycle, Refuse and Regenerate, educates its community on waste generation and management.
- Collaboration with local scrap dealers ensure the recycling of waste paper sourced from the campus.
